

# BDAML 2022

July 20-22, 2022

As a workshop of ICSIP 2022, BDAML is sponsored by Southeast University, China, co-sponsored by Southeast University Suzhou Campus and School of Cyber Science and Engineering.

## Conference Organizing Committee

### Advisory Committee

Prof. Xiao-Ping (Steven) Zhang, Ryerson University, Canada

### Conference General Chair

Prof. Jianyong Zheng, Southeast University, Suzhou, China

### Conference Co-Chairs

Prof. Bing Li, Southeast University, Wuxi, China

Prof. Jiuxin Cao, Southeast University, China

### Conference Organizing Chair

Prof. Weigong Zhang, Southeast University, Suzhou, China

### Conference Local Chair

Prof. Jian Xu, Southeast University, Suzhou, China

### Conference Organizing Co-Chair

Prof. Tao Li, Southeast University, China

### Technical Program Committee Chairs

Prof. Zhaohui Wang, Hainan University, China

Prof. Zhiwei Xu, Zhejiang University, China

### Technical Program Committee Co-Chairs

Prof. Qihou Zhou, Miami University, USA

Prof. Weiwei Wang, Xidian University, China

### Local Organizing Committee

Prof. Hanqian Wu, Southeast University, China

## Key Dates 重要日期

Submission Deadline June 05, 2022

Notification Date June 20, 2022

Registration Deadline June 30, 2022

## Publication 出版&检索

All accepted papers after proper registration and presentation, will be published in the ICSIP 2022 conference Proceedings as special chapter, and will be indexed by **Ei Compindex** and **Scopus**

## Topics 征稿主题

### Data and Big Data Science

- Information Retrieval
- Big Data Analytics
- Data Science Models and Approaches
- Algorithms for Big Data
- Machine Learning Techniques for Big Data
- Cyber-Infrastructure for Big Data
- Big Data Applications for Internet of Things
- Mobile Applications of Big Data
- Data mining in heterogeneous networks
- Big Data Transformation, and Presentation
- Analytics Reasoning and Sense-making on Big Data
- Big Data Archival and Preservation
- Big Data Privacy and Security
- Scalability of Big Data Systems
- Data Streaming Applications

### Machine Learning Theory and Applications

- Multi-modal Machine learning
- Weakly supervised learning
- Reinforcement learning and applications
- Data Mining and Machine Learning Tools
- Machine learning model compression algorithms
- Power-efficient algorithms for machine learning
- Machine learning based compiler techniques
- Distributed and decentralized machine learning algorithms
- Machine learning for security and protection
- Machine learning for Internet of Things
- Machine learning for multimedia

### Artificial Intelligence Technology and Application

- NLP sentimental analysis
- Graph neural networks and applications
- AI Algorithms
- Intelligent System Architectures
- Visual Analytics Algorithms and Foundations
- Graph and Context Models for Visualization
- Recommended system
- Intelligent Voice Recording System
- Smart search
